FACULTY

>S.D. Giere, PhD, Professor of Biblical Interpretation

DESCRIPTION

>Organized with a workshopping format, this course equips students to leverage computer-aided biblical study (software and resources) for critical study of the Bible in service of their study, teaching, and preaching.

ASSESSMENT

- Students are responsible for participating in and taking turns leading the workshop, sharing aspects of the resources to colleagues.
- Each student will create a summary of a small-ish research project on a biblical text.
- Students will have a final skill exam where they demonstrate proficiency with a self-selected portion of core skills covered throughout the course.

REQUIREMENTS

- A working computer (PC or Mac) of a relatively recent vintage available during each meeting of the course is a pre-requisite. System requirements.
- Logos 10 —**WAIT UNTIL FIRST DAY OF CLASS TO PURCHASE**
  - The recommended software package is: Logos Academic Standard.
  - Students are eligible to sign-up for an academic discount of 30%.
